

VEER SATIN FROSTED TEXTURED GLASS

PRODUCT INFORMATION

Oblique Series are defined by serpentine flutes produced with revolutionary reverse-mold technology. Ideal as divider wall panels, each pattern is bold, yet functional, without blocking natural light or closing in your space. Within the Series are 3 distinct patterns available:

Sawtooth (Mega, Mini, and Micro) – sink your teeth into distinctive highs and lows.

Veer (Organic and Satin) – crisp edges on one side and soft curves on the other.

Furrow – orderly rows softly ebb and flow on the surface, resulting in pinstriped privacy.
